## • ABOUT NEP 2020 :-

The current education system has a lot to learn from the ancient education system of India. We need universities like Takshashila and Nalanda in the modern day to address the issues of teaching and research to produce competent leadership in all spheres of life. Therefore, NEP 2020 foresees a holistic and multidisciplinary education with an aim to develop all capacities of human beings viz. intellectual, aesthetic, social, physical, and emotional and moral. National Education Policy 2020 (NEP 2020) proposes that a holistic and multidisciplinary education shall be the approach of all undergraduate programmes, including those in professional, technical, and vocational disciplines. We know that 'Educating the mind without educating the heart' is no education at all and National Education Policy 2020 has same progressive and futuristic approach to transform higher education into more inclusive, holistic, and multidisciplinary in nature which allows learners to learn and explore different courses from different areas of study.

## • ABOUT WORKSHOP

Learning does not remain confined to the boundaries of a particular discipline. It is to be realized that quality of education should not be considered in fragmented terms but in a more holistic and expanded manner. A multidisciplinary and holistic approach in education is instrumental in developing integrated individuals. It is a ground-breaking move as it helps the students to learn sciences, technologies, mathematics with liberal arts, humanities, languages, social sciences, professional skills, vocational skills, ethics, morality, human values and so on at the same time. This integrated approach can make students more marketable in today's workplace. In this regard, NEP 2020 rightly remarks that a quality higher education must prepare the students for more productive. It is pertinent to mention here that NEP 2020 leaves no place for hard separation between arts and sciences, between curricular and co-curricular activities or between vocational and academic streams. The policy advocates creative and multidisciplinary curriculum that includes humanities, languages, culture, sports and fitness, health and well-being, arts and crafts, in addition to science and mathematics. The combination of all creates a good balance between knowledge and interpersonal attributes. With this purpose our college had organized two One Day Workshops for teachers of Pune District in association with Savitribai Phule Pune University, Pune regarding the implantation of NEP 2020. And now we are going to organize One Day Workshop for Principals and Directors of Institutions on the topic “Implementation of National Education Policy (NEP) 2020” to implement National Education Policy 2020 effectively at Graduate Level from the Academic Year 2024-25. We are sure that the discussion and outcome in this one day workshop will enable all the stakeholders to enlighten the vision of quality higher education.
